

Route 30 Master Plan

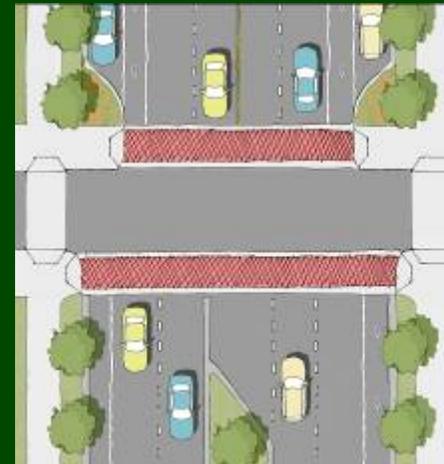

Community Vision Team

April 27, 2007

Route 30 Vision Statement

- The Lincoln Highway is one of the best transportation corridors in the nation
 - Safe
 - Efficient
 - Vibrant with economic activity

Key Goals

Consistent land use regulation	<ul style="list-style-type: none">• Enhance economic activities• Preserve historic character & rural beauty• Respect individual property rights
Healthy mix of development	<ul style="list-style-type: none">• Balance commercial, industrial, residential, agriculture, open space
Smart technology & parallel road networks	<ul style="list-style-type: none">• Improve safety• Optimize traffic flow & route choices
Multi-modal systems	<ul style="list-style-type: none">• Integrate roadway, transit, air & rail
Enhanced motoring experience	<ul style="list-style-type: none">• Well-maintained surface• Landscaping• Traffic control systems

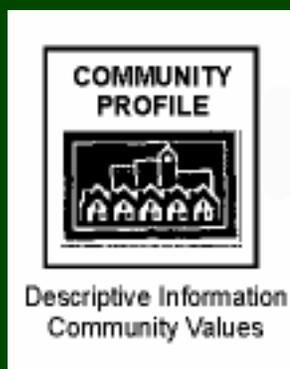

Critical Opportunities

- Optimize corridor safety & traffic flow
- Expand travel choices
- Revitalize core towns
- Shape suburban growth
- Preserve rural landscape

The Visioning Process

Where
are we
now?

Where
are we
going?

Where do
we want to
be?

How will
we get
there?

The "Oregon Model" for Community Visioning - Steven Ames

Workshop 1: Oct 2006

Where are we now & where are we going?

candidate route maps

Suburban Retail

space for notes

- No new curb cuts - use frontage roads, access via cul-de-sacs
- sign control - use monument signs, max 10' high
- require ~~max~~ min trees plantings along highway
- investigate shared parking
- no front yard parking
- establish medians, park spaces (Christmas cover but some green)
- bio-retention for parking lot run-off
- bike trails

Facilities

- Large parking structure
- Restrooms and bike racks
- Lighting
- Security cameras
- Signage

• Link parking garage to use space for housing + parking

Project Work Group: Dec 2005

Optimized Community Elements

Optimized Suburban Mixed Use Center *Westmoreland Mall*

Quality:

Re-develop the mall into a new suburban mixed-use center adding residential and civic components

Accessibility:

Create a block network and re-orient parking. Provide parallel connections off of US 30

Walkability:

Develop public parks/plazas and tree-lined streets to promote walkability

■ SFR

■ MFR

■ CM/INSTITUTIONAL

■ COMMERCIAL

■ MIXED USE

■ EMPLOYMENT/
INDUSTRIAL

Project Work Group: Dec 2005

Optimized Corridor

Figure 1: Optimal Corridor Conceptual Plan, Area 1

Legend

1A-Minor traffic signal improvements

1B-Modify westbound right turn movement at Leger Road to be truck accessible

1C-Provide landscaped median with left turn storage bays, curb, and driveway consolidation where feasible

1D-Convert center turn lane to landscaped median with left turn storage bays (in conjunction with Option 1C)

US ROUTE 30 MASTER PLAN

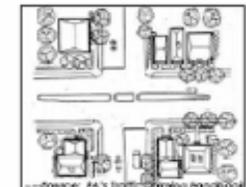

Potential Transportation Solutions

Access Management

- Consolidate Driveways
 - Connect Adjacent
- LAND USES**
- Parallel Service Roads
 - Limit Number of New Driveways
 - Provide Median

- Provide U-Turn Location
- Restrict left turns
- Raised Median through intersection

Transit, Bicycle & Pedestrian Options

- Bike Lanes
- Provide / Expand Transit Service
- Traffic Signal Priority for Transit Vehicles
- Bus Pull-Off Areas
- Park-Ride Lots
- Pedestrian Signals
- Sidewalks
- Mid-block Crosswalks

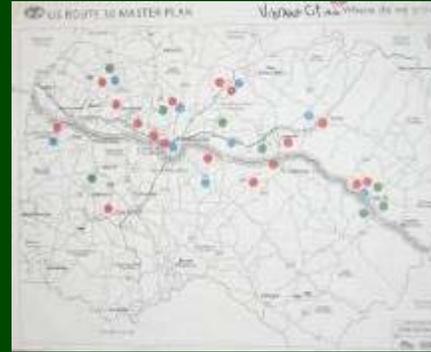

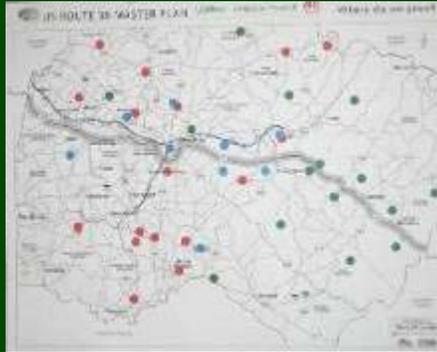

Workshop 2: Jan 2007

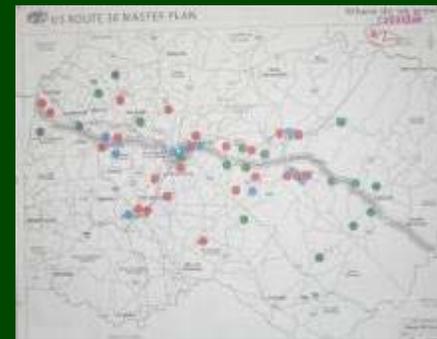

Where do we want to be? Generating ideas

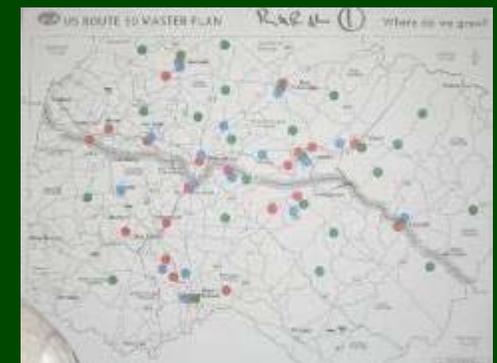

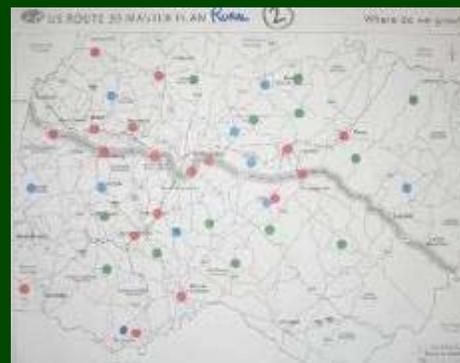

**Vibrant
Cities**

**Healthy
Suburbs**

**Thriving
Rural Area**

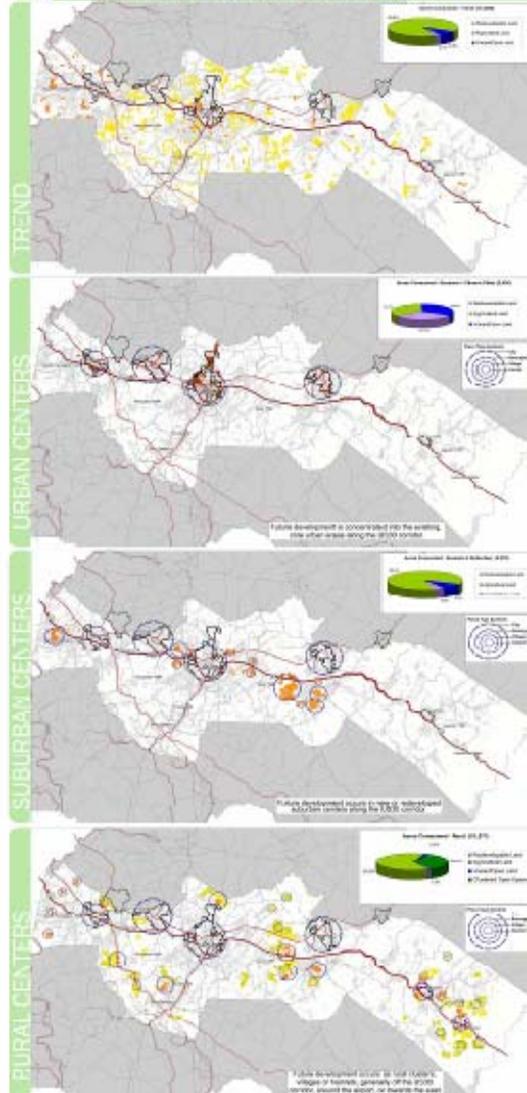

Workshop 3: March 2007

Where do we want to be? Evaluating scenarios

US ROUTE 30 Master Plan: SCENARIOS

US ROUTE 30 Master Plan: DEVELOPMENT TYPES

Community Vision Team April 2007

Today's Meeting

- Alternative Scenarios
- Preferred Scenario
- Vision Plan Recommendations
- Demonstration Plan Locations/ Goals

Alternative Scenarios

	Base Year 2000	Forecast Year 2030	Numeric Increase	Percent Increase
Population & Employment (all scenarios)				
Number of persons	158,662	170,081	11,419	7%
Number of households	64,752	77,820	13,068	20%
Number of jobs	100,854	104,339	3,485	3%
Land Area (all scenarios)				
Total acres	189,338			
Total unbuildable acres *	101,378			
Total buildable acres **	87,959			
Buildable redevelopable acres ***	9,046			
Buildable agricultural acres	70,052			
Buildable vacant/ open acres	8,862			

* Unbuildable land includes steep slopes, wetlands, water, primary road rights-of-way, existing residential areas, protected agriculture, parks/recreation areas, battlefields, & other local government public facilities.

** Buildable land includes redevelopable areas, vacant/open space, and non-protected agricultural land.

*** Redevelopable land includes commercial and industrial areas (not residential areas)

Existing Development

US Route 30 Corridor Scenarios: Existing Residential and Employment

- U.S. Route 30
- PA Turnpike
- Railroad
- Major Roads

Employment in 2000
Approx. Density

- 1 - 4 EMP / Acre
- > 4 EMP / Acre
- > 8 EMP / Acre
- > 16 EMP / Acre

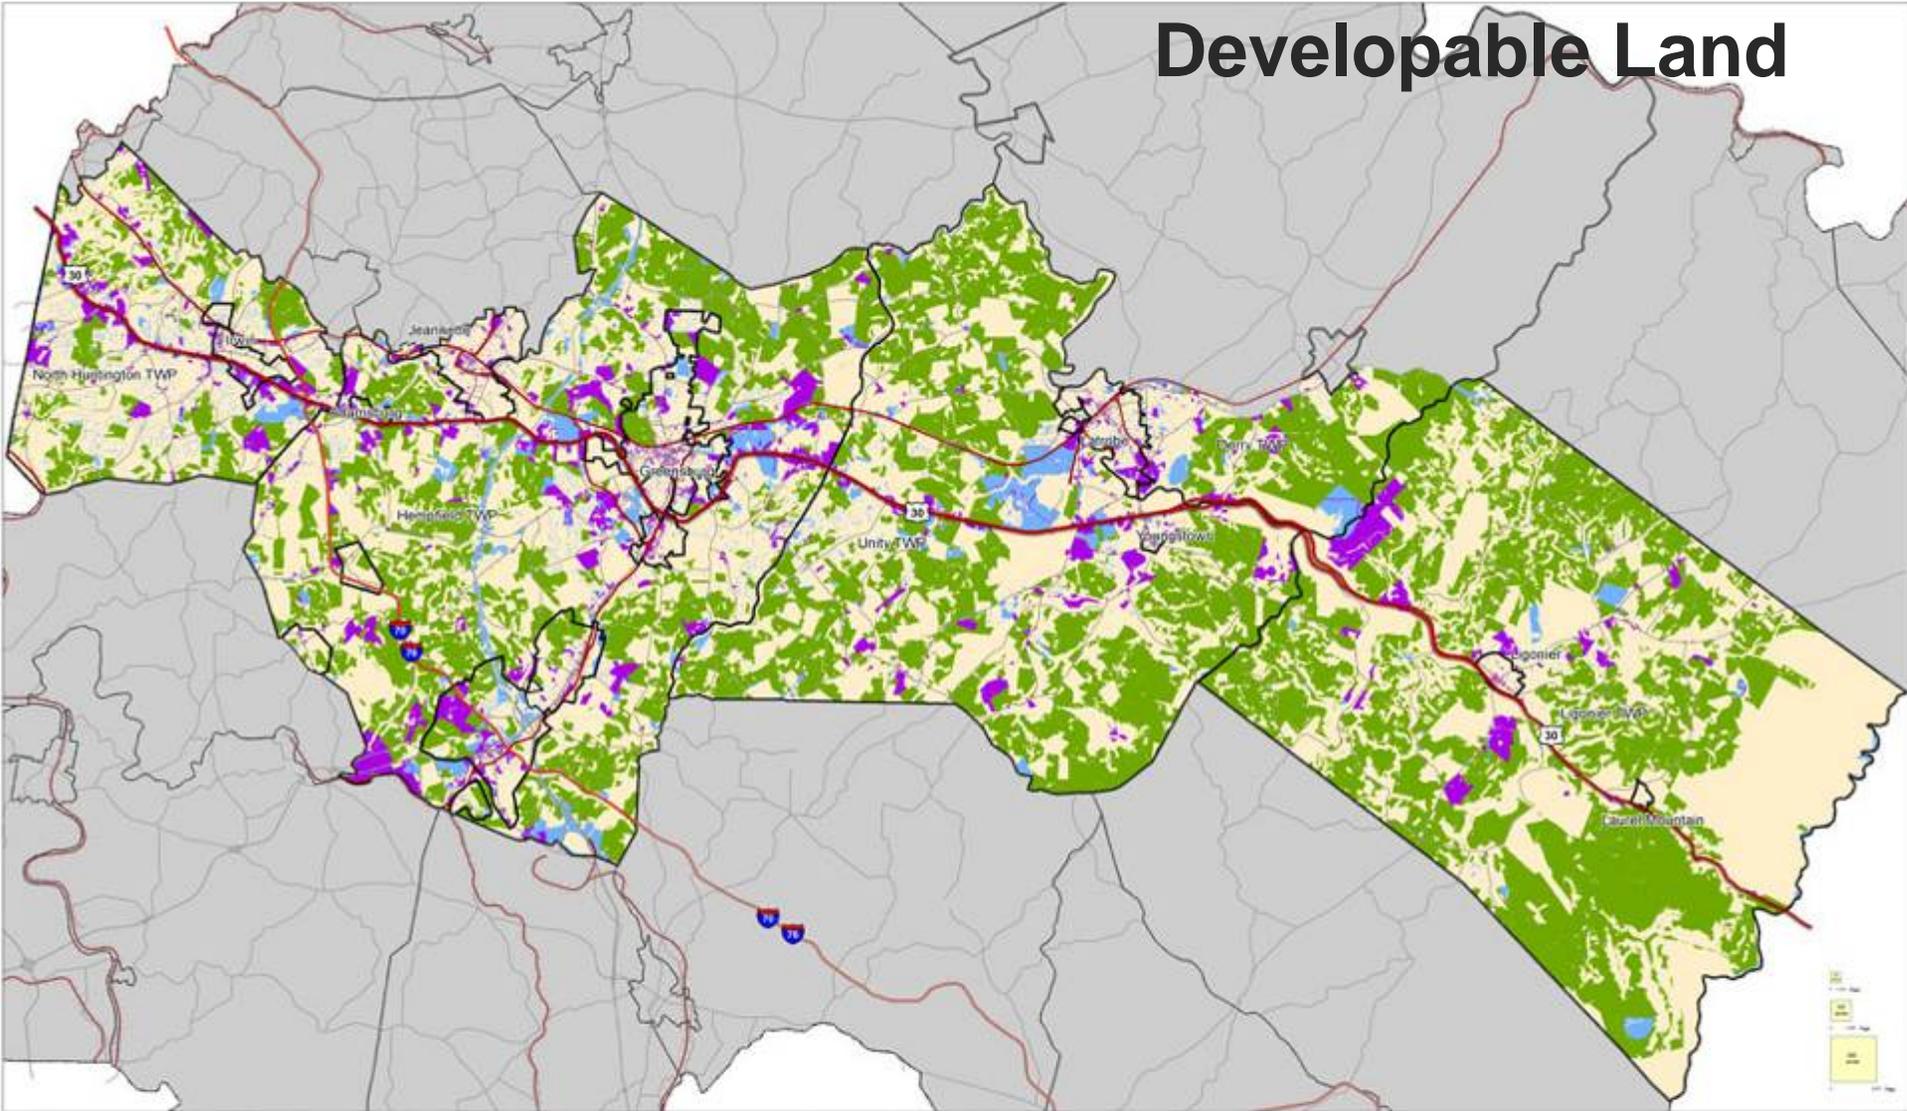

Residential in 2000
Approx. Density

- 1 - 3 DU Acre
- > 3 DU Acre
- > 5 DU Acre
- > 12 DU Acre

Study Area	2000	2030	Increase
Number of persons	158,662	170,081	11,419
Number of households	64,752	77,820	13,068
Number of jobs	100,854	104,339	3,485

Developable Land

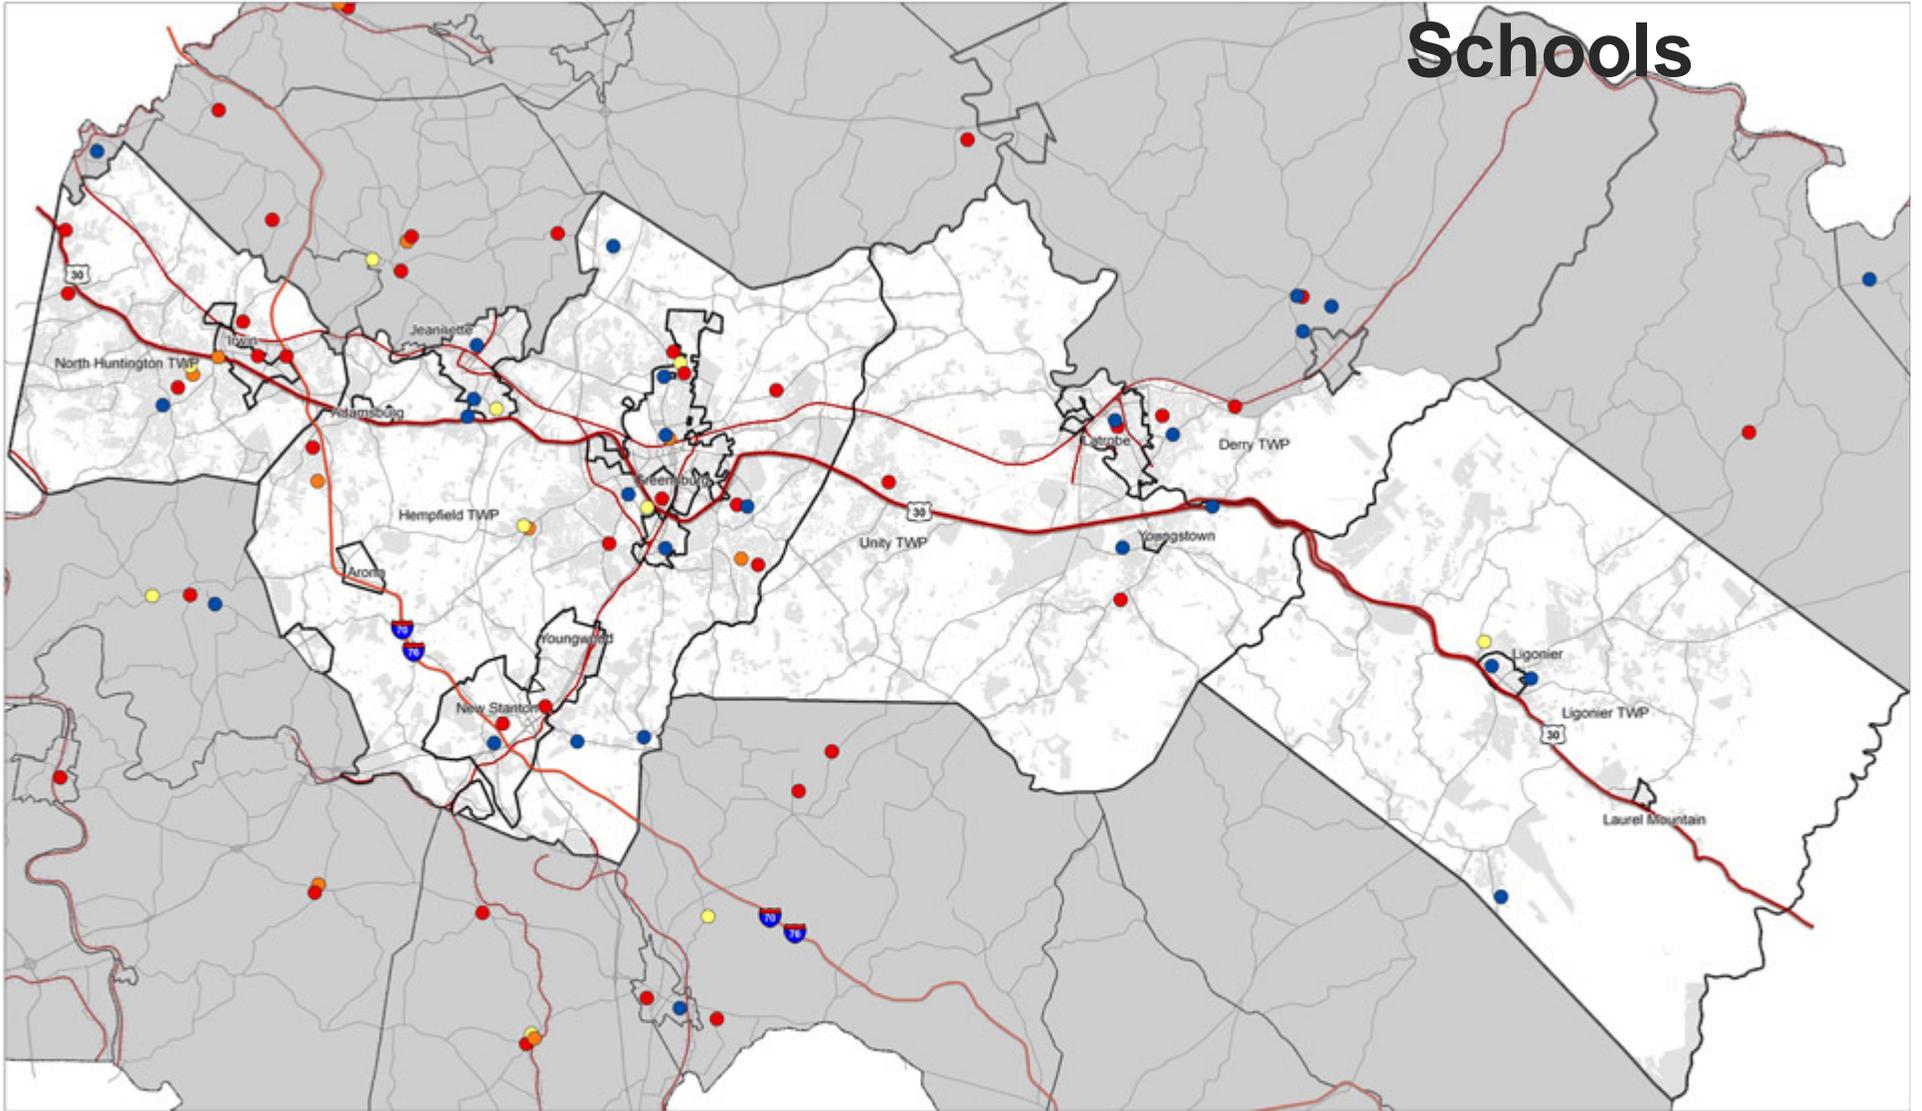

US Route 30 Corridor Preferred Scenario Development

- U.S. Route 30
- PA Turnpike
- Railroad
- Major Roads
- Developable Lands Updated 4-5-07**
- Agriculture
- Redevelopable
- Vacant
- Outside Study Area
- Unbuildable Areas

Trend Scenario

US Route 30 Corridor Scenarios: Trend

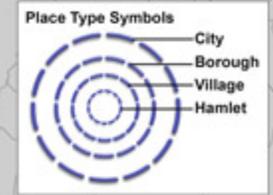

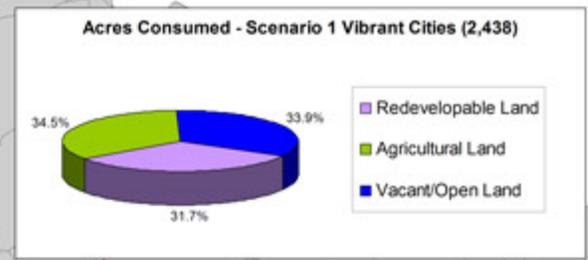

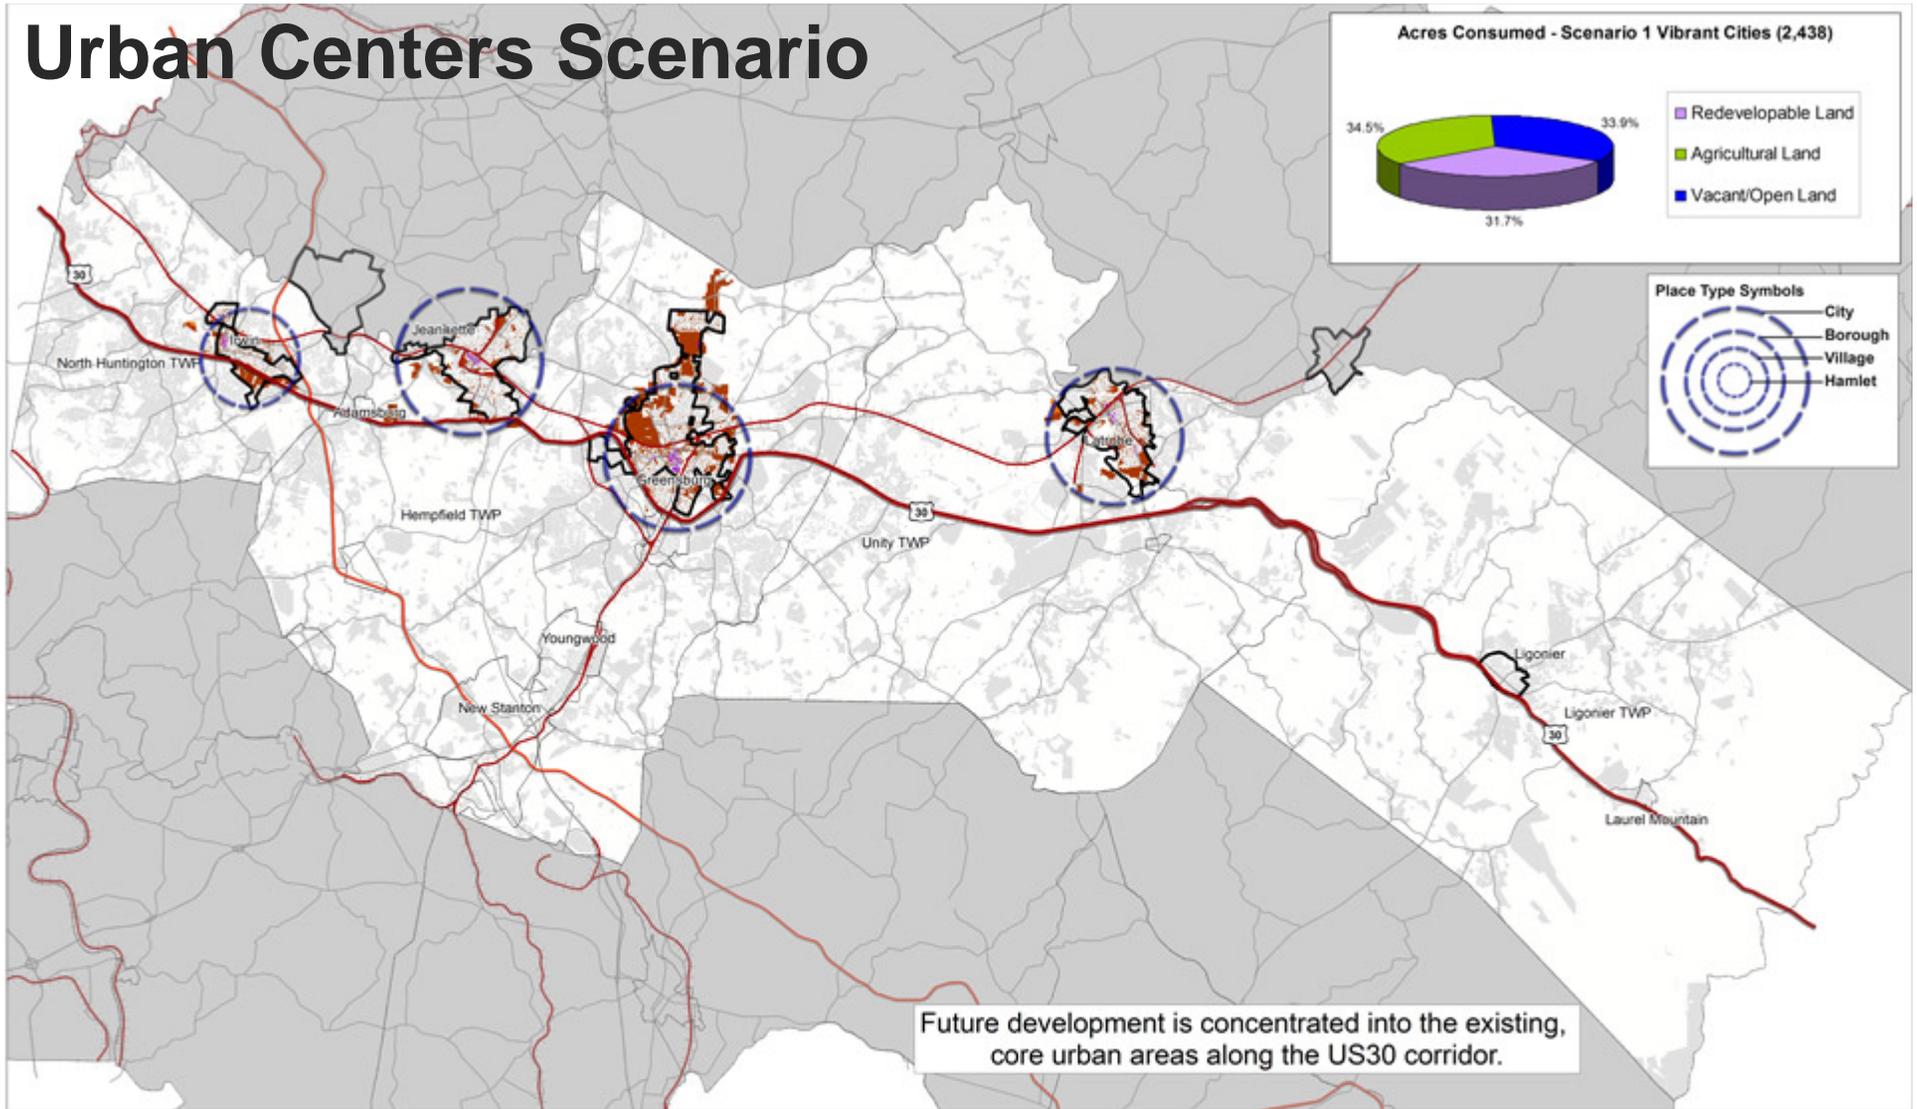

- U.S. Route 30
- PA Turnpike
- Railroad
- Major Roads
- Existing Urban/Built
- Outside Study Area
- Urban MU
- Urban MU Optimized
- Urban Residential
- Suburban Residential
- Rural Residential
- Employment Institutional
- Suburban Employment

Study Area	Increase by 2030
Number of additional persons	11,419
Number of additional households	13,068
Number of additional jobs	3,485

Urban Centers Scenario

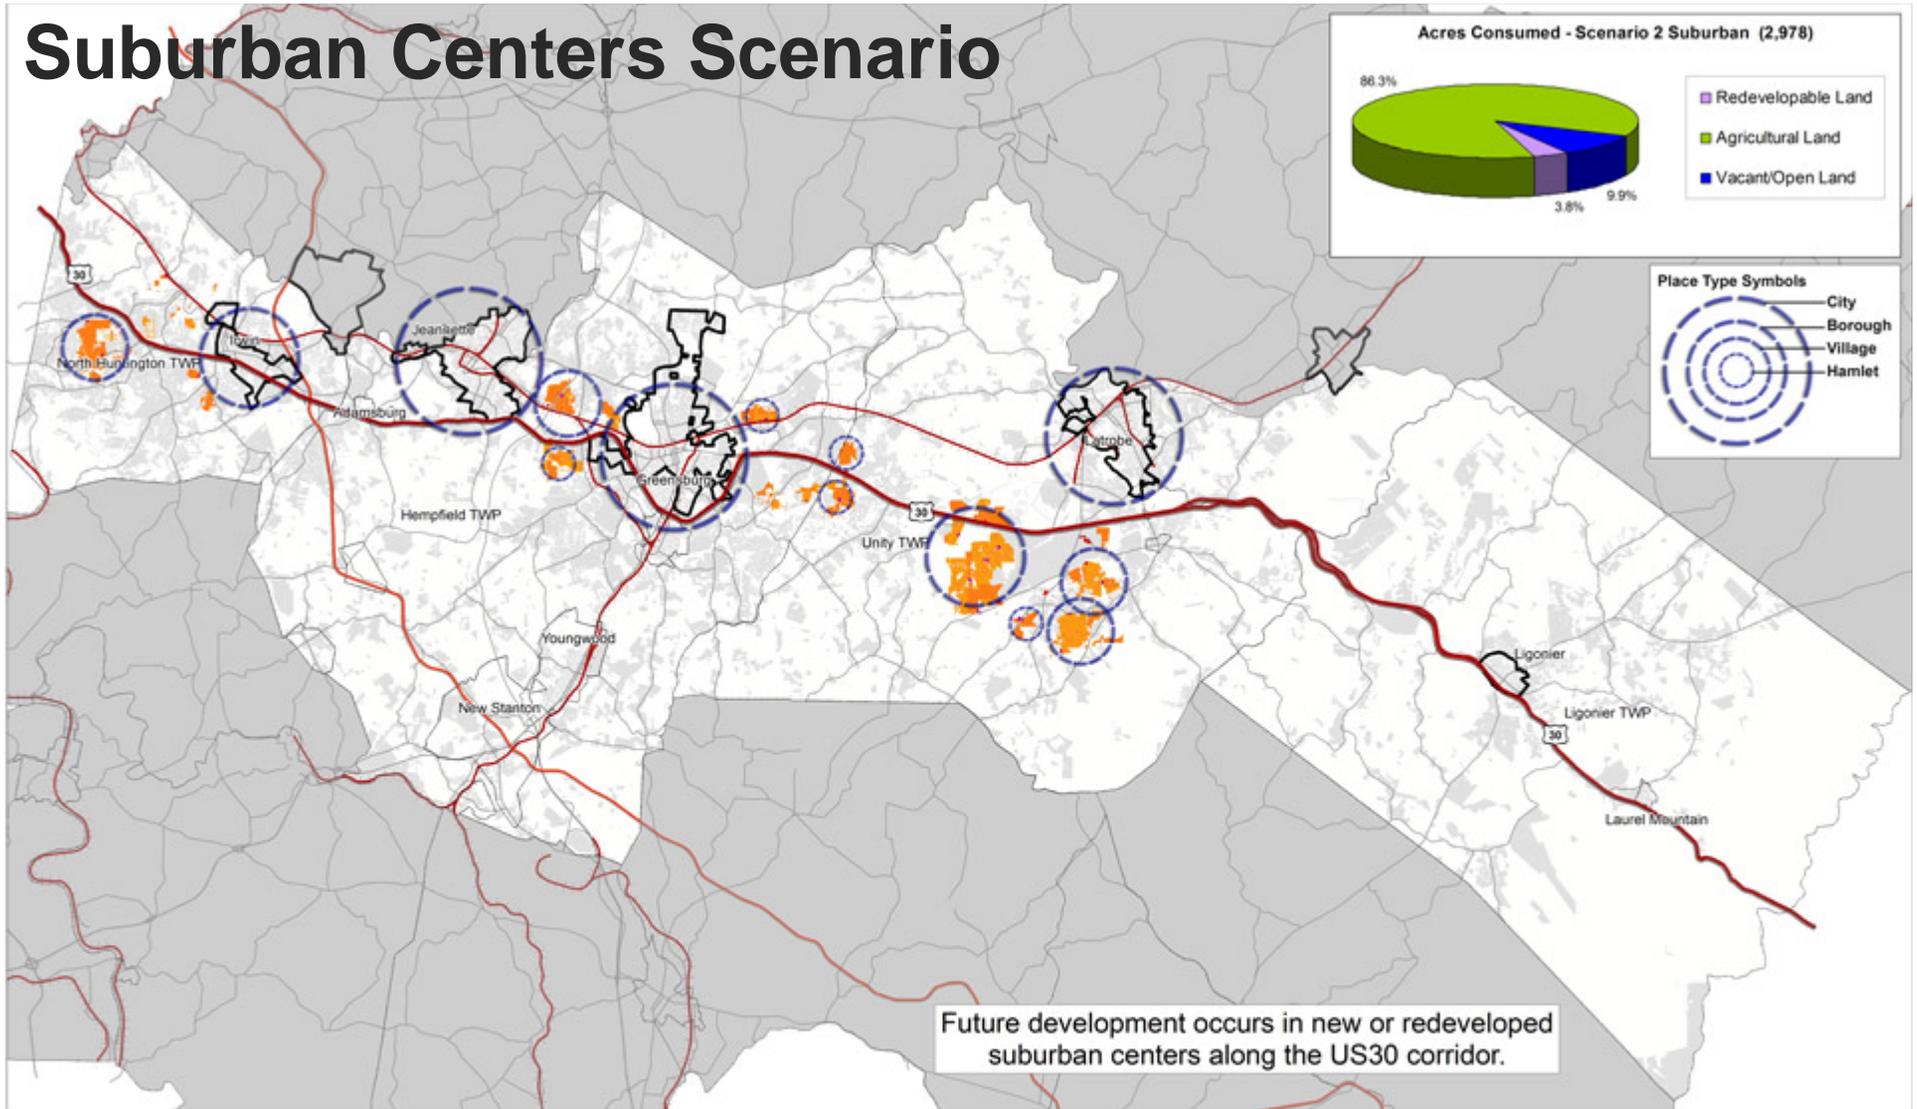

US Route 30 Corridor Scenario 1: Urban Centers

- U.S. Route 30
- PA Turnpike
- Railroad
- Major Roads
- Existing Urban/Built
- Outside Study Area
- Urban Mixed Use
- Urban Mixed Use Optimized
- Urban Residential
- Suburban Residential

Study Area	Increase by 2030
Number of additional persons	11,419
Number of additional households	13,068
Number of additional jobs	3,485

Suburban Centers Scenario

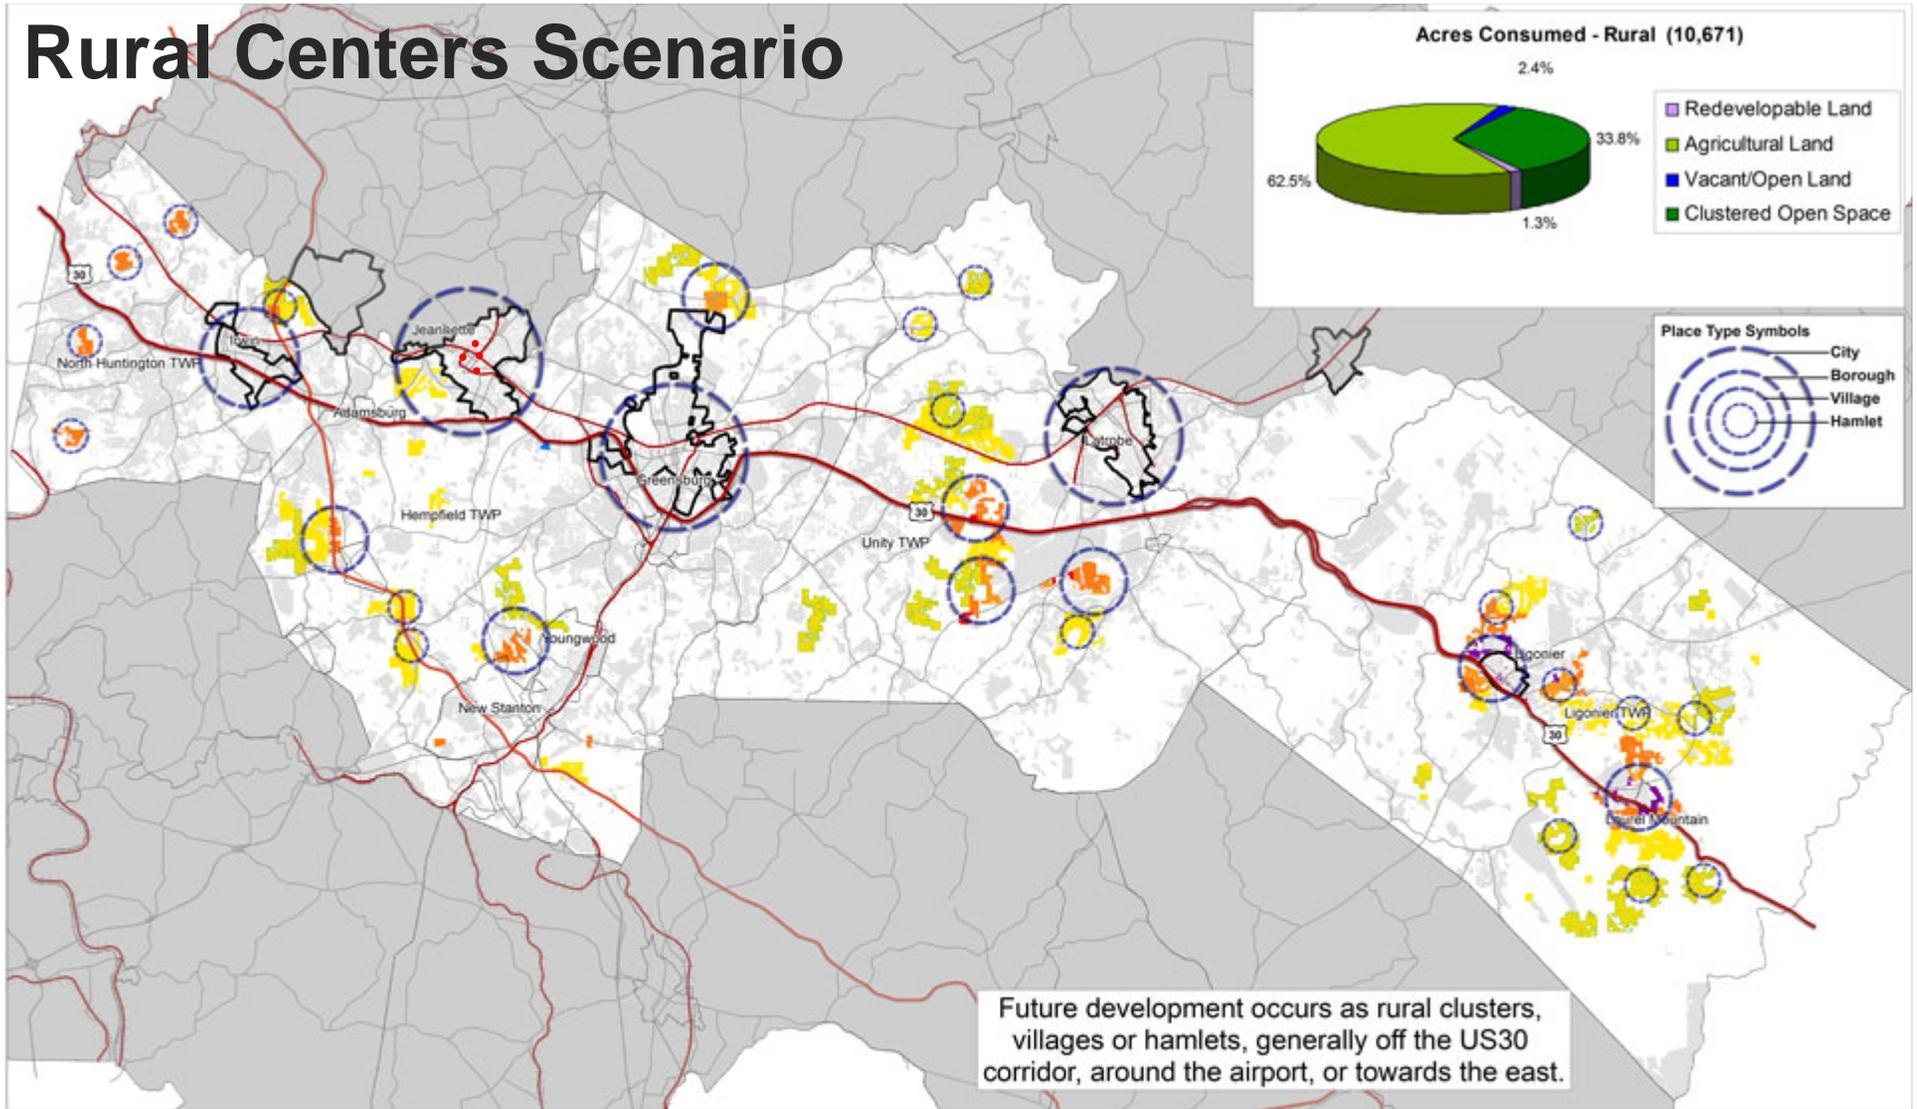

US Route 30 Corridor Scenario 2: Suburban Centers

Study Area	Increase by 2030
Number of additional persons	11,419
Number of additional households	13,068
Number of additional jobs	3,485

Rural Centers Scenario

US Route 30 Corridor Scenario 3: Rural Centers

Study Area	Increase by 2030
Number of additional persons	11,419
Number of additional households	13,068
Number of additional jobs	3,485

Public Workshop Rating Results

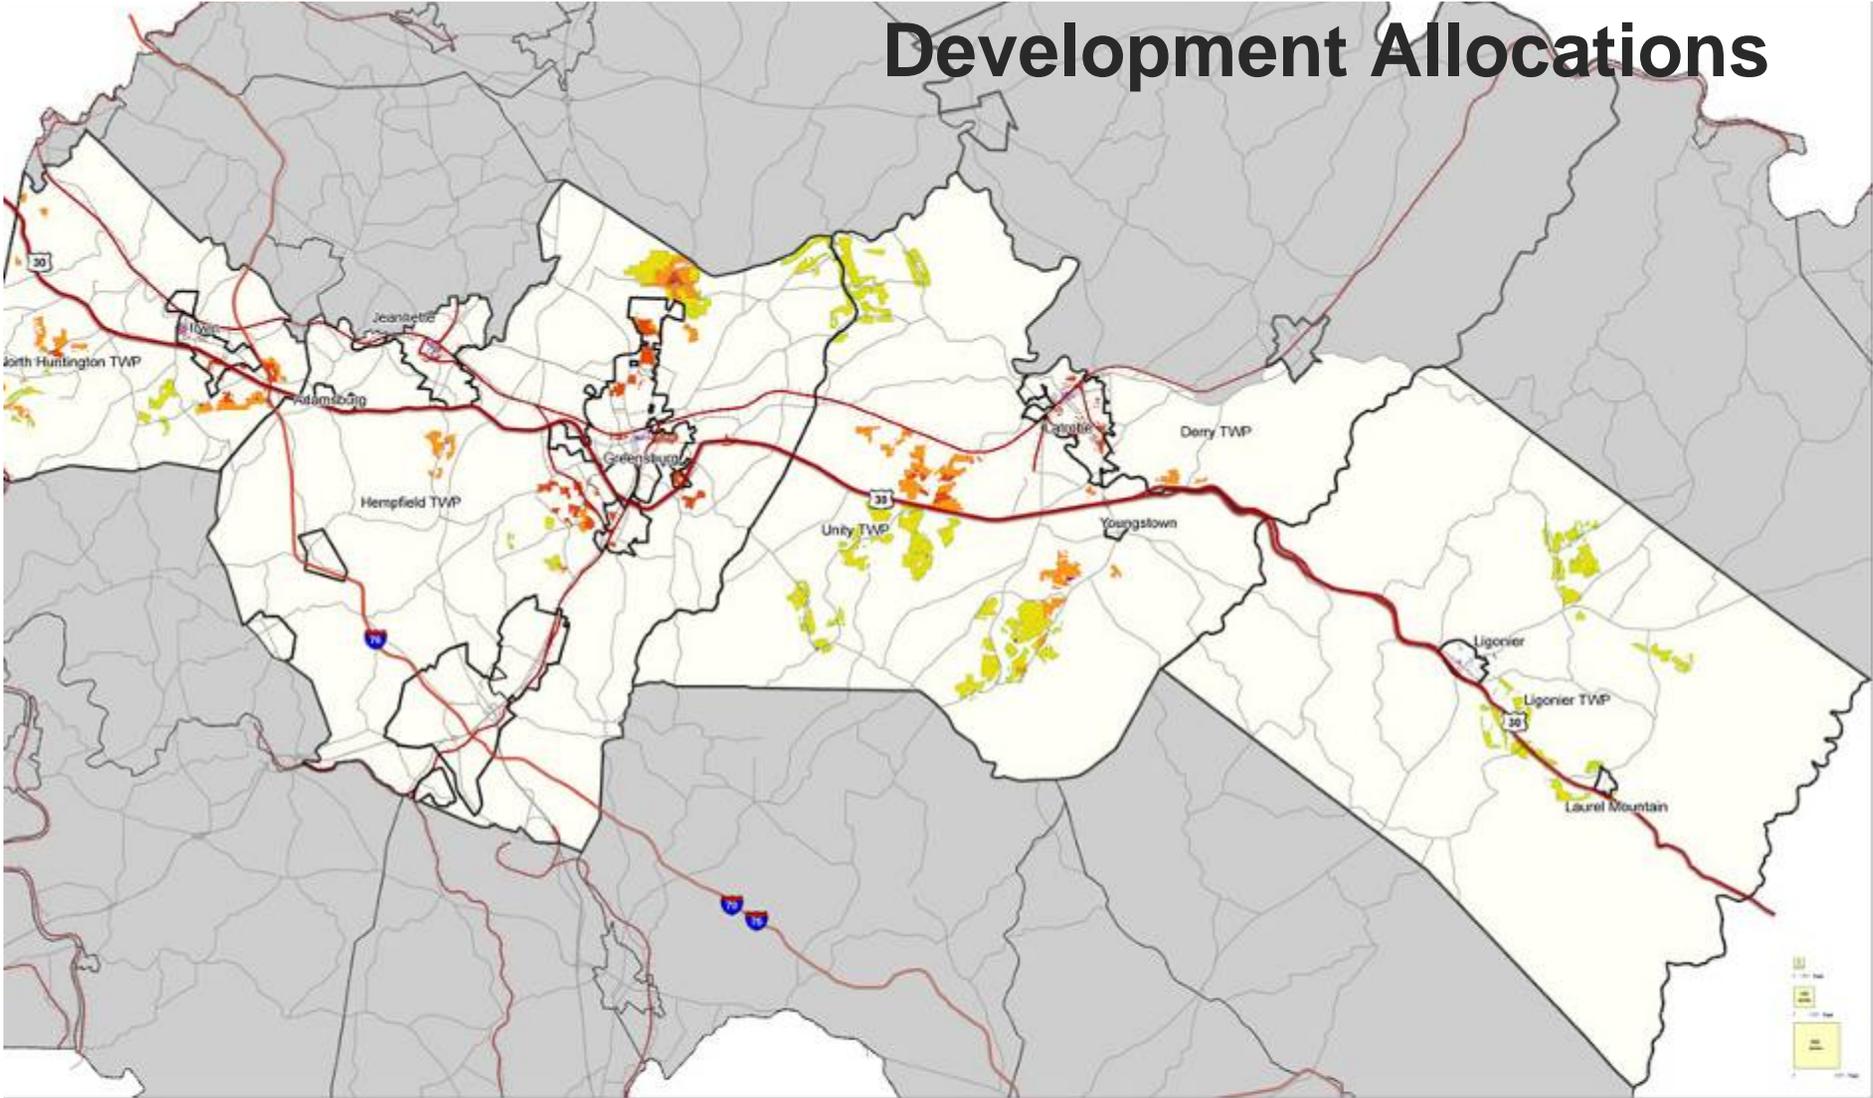

Score (1-5)	Trend	Urban	Suburban	Rural
Average	2.2	4.1	3.3	2.7
Median	1.5	4.5	3.5	2.0

Public Comments & Priorities

- Blend vibrant cities & suburban centers
- Add some rural cluster & village growth
- Maximize market trends & opportunities
- Optimize public infrastructure & services
- Reduce automobile dependence

Next Steps

- Vision Plan
- Demonstration Plans
- Design Guidelines
- Implementation Toolkit

Vision Plan

- Land Use Recommendations
 - Suburban growth
 - Rural landscape
 - Core cities
- Transportation Recommendations
 - Optimal corridor plan
 - Network connections
 - Transit opportunities

Demonstration Plans

- New Suburban Community
 - Unity area
 - Includes rural cluster subdivisions
- Reshaped Suburban Boulevard
 - North Huntingdon/ Irwin
 - Taming the big box
- Revitalized Core City
 - Jeanette? Latrobe?
 - “Shrinking city” techniques
